## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 14-17, 563-67 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smith (Pat # 5,475,317).

As to claims 14-15, 17, 54, 55, 60-62, 65, 67, Smith discloses an apparatus as shown in figure 3 having a die (2) with electrical couplings (2a), a chuck (10) with electrical couplings (10a) and an intermediate member (4,6) with electrical couplings (4a, 4b, 4d) and interconnects (4c) adapted to receive the die (2) and to electrically connect the electrical coupling of the die with the electrical coupling (10a) of the chuck (10). It would have been obvious for one of ordinary skill in the art to recognize that the die (2) is an electronic device wafer. As to claims 16, 59 and 66, it would have been obvious for one of ordinary skill in the art to consider that a selection for the electrical interconnect such as "pogo pin" would have been an obvious design choice since this is an alternative type of interconnect using for conducting electrical signals. As to claims 53, 57 and 64, the interconnect member (4,6) are made of ceramic, therefore this material is considered as substantially nonconductive material. As to claims 56 and 63, it appears that an outwardly exposed surface of the electrical coupling (2a) of the die (2) or electronic device wafer is substantially coplanar with the surface of the die or electronic device wafer.

3. Applicant's arguments with respect to claims 14-17 filed on 05/10/02 have been considered but are moot in view of the new ground(s) of rejection.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to VINH P. NGUYEN whose telephone number is (703) 305-4914.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 305-4900.
